WORKSHOP

ACCESSING AFFORDABLE HEALTHCARE AND MANAGING MEDICAL BILLS

Presented by Georgia Watch and Georgians for a Healthy Future

Topic:

Healthcare is expensive. To make matters worse, not only do many Georgians lack health insurance but even those who are insured often find themselves facing surprise out-of-network medical bills that can result in overwhelming medical debt.

Goal:

The workshop will educate uninsured and insured patients about how to access low-cost healthcare and manage medical bills and debt.

When and Where:
